Entrance to Marine parking lot

**Always remember to do
your LPSA. Assess,
Analyze, and Act...**

**What could go wrong in a
parking lot during non-
daylight hours? There may
be a pedestrian present,
that I would have trouble
seeing, going to his/ her
vehicle.**

**What Am I going to do to
prevent it? I'll slow down,
follow all road signs, and
I'll be prepared to yield to
pedestrians.**

Incident Description:

On Monday June 21, 2010 at approximately 4:45 am, a contractor was struck by a vehicle while walking through the Marine parking lot by 31 Gate.

A vehicle entered the Marine parking lot, proceeded in the wrong direction (against the painted directional arrows) in the parking lot and struck the pedestrian.

CFD was immediately called to render aid to the pedestrian. The pedestrian was transported to a local hospital via ambulance for further evaluation. The results of the x-rays are pending.

Immediate Actions Taken:

Follow the Rules of the Road – Drivers and Pedestrians have responsibilities. Don't proceed into a cross walk unless it is safe to do so.

Rules of the Road

5 mph: Construction Zone Speed
Limit

20 mph: Refinery speed limit, unless
otherwise posted.

The use of cell phones, even with
hands free devices, while driving is
PROHIBITED!

Come to a complete STOP at all Stop
Signs.

Always follow flagman's directions!

Seatbelts are required.

Yield to pedestrians.

Always YIELD to trains and
Railserve safety vehicles.

Large vehicles warrant a spotter.
Use one.

This MVC resulted in an injury, and was entirely preventable by both the driver and the pedestrian. The driver should not have been going in the wrong direction and should have been prepared to stop for any pedestrians or other hazards. The pedestrian, although he did not violate any rules, could have looked before he crossed and prevented this accident as well.
